

## Wall Street Farm Wellington Interscholastic Equestrian Association (I.E.A.) Team

### 2010-2011 WALL STREET TEAM

#### COACHES

Steve Lengyel  
Heidi Walkup Lengyel

#### HIGH SCHOOL TEAM RIDERS

Taylor Aguilar  
Samantha Boehm  
Emma Calabrese  
Kelly Dickerson  
Taylor Ebken  
Kiersten Frick  
Victoria Griffith  
Katie Jones  
Haley Lichtenwalner  
Emily Lutz  
Brianna Martinez  
Jordan Nelson  
Brooke Rainey  
Eveline Smith  
Jackie Taylor  
Tiffany Thompson

#### MIDDLE SCHOOL TEAM RIDERS

Madison Aguilar  
Riley Bonis  
Brett Burlington  
Koren Cole  
Camila Conesa  
Adriana Maribona  
McKenzie Miller  
Andrew Phillips  
Rebecca Ragan  
Emilee Smigel  
Taylor Thompson  
Kayla Wallace  
Josiah Wienges

#### FUNDRAISING CHAIRS

Camila Conesa  
Jeanne Rouco-Conesa

The Wall Street Farm Wellington IEA Team was formed and organized to promote and improve the quality of equestrian competition and instruction available to middle and secondary school students, as well as to funnel riders to collegiate riding teams. As a member of the well designed Intercollegiate Equestrian Association (IEA), the Wall Street Farm Wellington team is geared to promote the common interests of safe riding instruction and competition, develop understanding and appreciation of equestrian sports, provide students with organized competitive events, as well as provide additional equine educational opportunities, specifically to riders who might not have the opportunity otherwise. The Wall Street Farm team riders are offered the experience of a lifetime, training as a team and enjoying a well-organized competition circuit.

Currently, through the IEA, Wall Street Farm student riders have a few opportunities to earn scholarships towards their college education. The IEA is an affiliate of the [United States Equestrian Federation](#), the [Intercollegiate Horse Show Association](#), and the [USHJA](#). In addition, a new program called the "Emerging Athlete's Program", allows high school students who are active members of the USEF the ability to acquire varsity school letters for riding. This is the first program to enable these student rider's to receive athletic academic recognition!

When riding for the Wall Street Farm team, the emphasis for the rider is totally on the sport and ability to ride, not ownership of a horse that might present an advantage due to its abilities. The unique aspect of these competitions, both at the local and national level, is that it emulates the collegiate riding format where none of the riders supply their own horses or tack. Instead, the horses, saddle and other tack are all provided to the students at the competition by the host team. The equipment and horses may be borrowed from various training barns and facilities. Essentially, the horses are new to the riders, and the scores are based upon horsemanship, not the horse. It allows all riders, no matter the financial backing, to compete on a level playing ground. The skills the riders develop in this structure of competition are clearly invaluable.

*WSF IEA Team presenting a plaque to **Georgina Bloomberg**, acknowledging her sponsorship at the FTI - WEF Grand Prix in Wellington, FL in 2010*

Wall Street Farm Wellington IEA Team's inaugural 2009-2010 year was very successful. The team of 16 riders had multiple Regional, Zone and National wins. With many public appearances at large venues, the Wall Street Farm IEA Team has been able to introduce more riders to this IEA concept. Our assistant coach is the Florida Chairperson for the Florida IEA; and after tryouts this summer our roster is at 28 strong. It looks to be a great year for the Wall Street Farm Wellington IEA Team.

The National IEA Finals this year are at the Prince Georges Equestrian Center in Maryland. Along with our team fundraising activities, we are looking to acquire sponsorship this year to help defray the costs of our IEA team competitions, travel expenses, and team activities. We have estimated our cost to participate as a team at the IEA Nationals to be around \$15k. Please help us get there!

**Our sincere gratitude to the Inaugural 2009-2010 WSF IEA Team Sponsors. Your contributions were instrumental in our success:**
